COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Examiner:

In response to the Notice of Allowance mailed 08/01/2008, please enter the following:

REMARKS

In the Examiner's Statement of Reasons for Allowance, the Examiner has stated the following: "[w]hile the prior art teaches monitoring a packet stream in order to detect virus infected packets or network attacks, the prior art does not teach doing so passively, as claimed, while also spoofing a network protocol packet by sending a legitimate packet to a network domain in place of an infected packet, in the particular combination of limitations as claimed."

In response, applicant points out that at least some of the independent claims (e.g. Claims 32 and 41) are not limited to at least the emphasized features that the Examiner has highlighted above.

Just by way of example, independent Claim 32 requires:

"a network interface receiving copies of datagrams transiting a boundary of a network domain into an incoming packet queue, each datagram being copied from a packet stream" (emphasis added), as claimed.

Further, as yet another example, independent Claim 41 requires:

"receiving copies of datagrams transiting a boundary of a network domain into an incoming packet queue, each datagram being copied from a packet stream" (emphasis added), as claimed.

Clearly, at least some of the independent claims are not limited to the features that the Examiner has noted above in the Examiner's Statement of Reasons for Allowance, as emphasized above (by way of example). Instead, each of the claims should only be limited by the language existing therein.

In the event a telephone conversation would expedite the prosecution of this application, the Examiner may reach the undersigned at (408) 505-5100. The Commissioner is authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-1351 (Order No. NA11P393).

Respectfully submitted,
Zilka-Kotab, PC
